

About the Human Race

The first "Human Race" in Illinois will have its inaugural roots in McHenry County!

What is The Human Race?

The Human Race is a 5k run/walk which brings the community together in support of charities serving McHenry County. Walkers and runners have the opportunity to raise pledges for the charity of their choice and participate on their behalf. Check the current list of charities participating. Join a team with your co-workers, friends, favorite charity, or participate on your own. The top fundraising organization will receive a \$500 award and the top fundraising individual will receive a \$250 award for the organization of their choice!

Human Race events have taken place in communities around the nation for over 22 years. This cooperative event is open to all charities serving McHenry County. The Volunteer Center provides and manages all aspects of the event, allowing small to mid-sized organizations to easily and successfully raise funds.
